

To whom it may concern,

I have had the opportunity to have Aaron Celeste as a direct report to me for the last four months while he's been a driving associate with Swift Transportation and has been nothing short of phenomenal. One of the biggest contributors to that fact is Aaron has a very keen attitude towards asking questions, and having the conscientiousness to respond, adapt and internalize the information given and be productive and perform his given function to the best of his ability, and perform his task a cut above his peers. I would highly advocate for him in being placed in any professional environment.

Respectfully,

Dalton
